Skills

⇨ **Frontend Development :** HTML , CSS , JavaScript , Basics of React JS
⇨ **Framework and libraries :** Bootstrap , Tailwind CSS

Work Experience

Codsoft Company (online internship)   June 2024 – July 2024
Internship Trainee
- The program kicks off by diving deep into the trio of essential frontend technologies. You'll learn to create structured web content using HTML tags, style it with CSS, and add interactivity using JavaScript.
- Understand the principles of responsive web design, ensuring your creations adapt seamlessly to various devices and screen sizes.
- Get hands-on experience building captivating landing pages. Craft your personal portfolio website. Showcase your skills, projects, and achievements to potential employers.
